MINIMIZE

MINIMIZE is a procedure used during periods of crisis or other abnormal periods to reduce the volume of record and long distance telephone traffic ordinarily transmitted electrically.

MINIMIZE applies to ALL users of DOD communications systems, including originators of card and tape traffic.

Procedures. When MINIMIZE is imposed, users of DOD electrical communications facilities must determine that:

1. The information to be forwarded is required to avoid a seriously detrimental impact on mission accomplishment or safety of life.

2. Electrical transmission is the only way to get the information to the addressee in sufficient time to accomplish its purpose.

Alternate Means of Communications. The US mail, the US Armed Forces Courier Service, or an individual as a courier or messenger should be used instead of using electrical means when MINIMIZE is imposed.

Authority to Impose and Cancel MINIMIZE. Commanders are authorized to impose MINIMIZE within their command or area of command responsibility unless specifically denied by appropriate higher authority. The Joint Chiefs of Staff impose it worldwide as well as in any specific area. The Joint Chiefs of Staff or the commander concerned, as appropriate, will cancel MINIMIZE when no longer required.

Authority. Allied Communications Publication (ACP) 121 US Supplement-1

NATIONAL COMMUNICATIONS SYSTEM VOICE PRECEDENCE SYSTEM

GENERAL INSTRUCTIONS

1. The National Communications System (NCS) Voice Precedence System which became effective 14 February 1970, is directed for use by all authorized users of the voice communications facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedences. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize one higher than the circumstances require.

2. The NCS Voice Precedence System does not make specific provisions for the conduct of test and exercise calls. Those activities or individuals authorized or required to conduct such tests and exercises will employ precedences consistent with the nature of the test or exercise, and upon contacting the called party will identify the call as a FLASH test call, IMMEDIATE test call, or PRIORITY test call.

3. Calls of a given precedence will not normally pre-empt calls of an equal precedence. However, calls originated by the President of the United States, Secretary of Defense and Joint Chiefs of Staff can pre-empt FLASH calls in progress by application of their FLASH OVERRIDE capability. In addition, commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency and CINCNORAD when declaring either Defense Condition One or Air Defense Emergency may also pre-empt FLASH calls in progress by application of the FLASH OVERRIDE capability.

4. The precedence indicators listed on the following page are directed for joint use and specify, by military precedence designator, the relative order in which telephone calls should be handled based on the importance (content) of the call.

NATIONAL COMMUNICATIONS SYSTEM VOICE PRECEDENCE SYSTEM

MILITARY PRECEDENCE DESIGNATOR	TRANSMISSION PRE-EMPTION	APPLICATION
FLASH	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls. May be pre-emptcd by the application of the FLASH OVERRIDE capability available to: (1) The President of the United States, Secretary of Defense and Joint Chiefs of Staff; (2) Commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency; (3) CINCNORAD when declaring either Defense Condition One or Air Defense Emergency and other national authorities as the President may authorize.	Flash precedence is reserved generally for telephone calls pertaining to: (1) Command and control of military forces essential to defense and retaliation; (2) Critical intelligence essential to national survival; (3) Conduct of diplomatic negotiations critical to the arresting or limiting of hostilities; (4) Dissemination of critical civil alert information essential to national survival; (5) Continuity of Federal Government functions essential to national survival; (6) Fulfillment of critical United States internal security functions essential to national survival; (7) Catastrophic events of national or international significance.
IMMEDIATE	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls.	Immediate precedence is reserved generally for telephone calls pertaining to: (1) Situations which gravely affect the security of national and allied forces; (2) Reconstitution of forces in a post-attack period; (3) Intelligence essential to national security; (4) Conduct of diplomatic negotiations to reduce or limit the threat of war; (5) Implementation of Federal Government actions essential to national survival; (6) Situations which gravely affect the internal security of the United States; (7) Civil Defense actions concerning direction of our population and their survival; (8) Disasters or events of extensive seriousness having an immediate and detrimental effect on the welfare of the population; (9) Vital information having an immediate effect on aircraft, spacecraft, or missile operations.
PRIORITY	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls.	Priority precedence is reserved generally for telephone calls requiring expeditious action by called parties and/or furnishing essential information for the conduct of government operations.
ROUTINE	Has no precedence over any other call and is handled sequentially as placed by the calling party. No pre-empt.	Routine precedence designation applies to those official government communications which require rapid transmission by telephonic means but do not require preferential handling.
